

**Dr. G.M. Arif**, at present, is the Joint Director at Pakistan Institute of Development Economics (PIDE), and heads a Research Division on ‘Population, Poverty and Labour Dynamics’, which is responsible to carry out research on issues related to the social sector. He has worked as Poverty Reduction Specialist at the Asian Development Bank, Pakistan Resident Mission, from 2004 to 2007. He also has been a visiting Fellow at the European Forum for Migration Studies, University of Bamberg, Germany in 1996. Dr. Arif did his PhD in Demography from the Australian National University, Canberra, Australia, with a specialisation on international contract labour migration. He has written extensively on migration, urbanization, labour market and poverty issues. He has more than 50 publications in his account. More recently his research has focused on poverty dynamics.

He was Lead Consultant for the SAARC Development Report 2007-08. He was the Vice President of the Population Association of Pakistan (PAP) and was Secretary of the Pakistan Society of Development Economists (PSDE) for the 2008-10 period. He regularly participates in policy forums. He has recently headed a committee, constituted by the Planning Commission, on poverty estimation for the 2010-11 period. Presently he is also member of the task force on safety nets. He was a member of the Working Groups on ‘Poverty Reduction Strategy and Human Resource Development’ and ‘Urban Development’ for the 10<sup>th</sup> Five-year Plan (2010-15); and Member of the Working Group on Migration, 2003, Ministry of Labour and Manpower Islamabad.

Nomination for APA Council 2018
